We hope the committee will act in good faith and make such a thorough investigation as will leave no room for doubts as to the honesty of the committee. The fact that this is the only committee of the kind appointed, shows that there is a suspicion an opportunity for explanation, and that even at Charleston that everything is not as smooth as it might be.

The Special Court commissioned by the Governor to hear and decide the con-tested election case for the Judge of the Fifth Judicial Circuit, met and organized on Saturday, the 28th inst., at the capitol. The court consists of Col. B. H. Smith, of Charleston, President of the court; Samuel Woeds, of Barbour, and R. S. statement is made that three of the members—namely, Niblack, McCrary and Merrick—will vote in favor of such a resolution, and they being a majority it is expected the proposition will succeed. It is thought the inquiry will not continue more than a fortsight from the time of the reassembling of the committee, but a report is not expected until the last of January, as the testimony will require much time in printing. The most emphatic statements continue to be made regarding the facts already elicited, and if

To the Editors of the Intelligencer.

Your local columns this morning announce another strike among the coal miners. This is nothing more than is to be expected under the present greedy, grasping policy of the dealers. Every unnecessary advance made by the dealers in the price of coal will be followed closed by strikes on the part of miners, as the legitimate result of such advance. The present strike is the direct result of the previous advance. The market legitimate result of such advance. The present strike is the direct result of the green tarke is a such as a such

last week, and 1182 head same time has year. Of the offerings 644 head were taken by Baltimore butchers, 397 head sold to speculators for Eastern markets, 33 to York county dealers, and 35 to Washington and Annapolis dealers—total sale for the week 1010 head, against 471 last week, and 1116 head same time last year.

SHEEP—The market this week was year lightly supplied, the number not

very lightly supplied, the number not reaching half that of last week. The demand is quite limited, but it exceeds the supply, and prices in consequence have advanced about ic as compared with last week. We now quote at 450 ccents per lb gross, with some prospect of a further advance. Receipts this week 520 head, against 1196 last week, and 920 head same time last year.

Hose—There is a slight falling off in the receipts this week as compared with last week, notwithstanding this prices are no higher, though during the week at one time there was a slight advance, which, however, was maintained but a short time, and now at the close of the market time, and now at the close of the market to-day prices are scarcely as firm as they were last week. Our lowest quotation being a shade lower, while the other fig-ures are unchanged. We now quote at \$5 50a6 per 100 lbs net. Receipts this week 7324 head, against 7703 last week, and 4481 head same time last year.

More Important Disclosures than any Yet Made Public-The Most Stu-pendons Legislative Corruption Ever Made. (Washington Dispatch to Providence Journal.) sion, if the floor can be obtained for onering the necessary resolution of instruction to the committee. Rumors point to more important disclosures than any yet made, and that the whole truth including that which has been believed to be effectually concealed will come to light. It is stated that other members from Massachusetts than those hitherto named, will be offered as opportunity for explanation, and that

at least three leading Democrats will re-ceive similar attention. (Washington Dispatch to Cin. Commercial.) There seems to be little question among those who have interested themselves or the subject of the investigations of the Credit Mobilier Committee, that when the members charged with that inquiry reassemble on the 9th inst., a resolution will be passed opening, the doors of the committee room to the public. That question, at all events, will be the first one considered by the committee, and the statement is made that three of the memmuch time in printing. The most em-phatic statements continue to be made regarding the facts already elicited, and if half of them are true, and their truth is affirmed by respectable persons, the inves-tigation will show the most stupenduous corruption ever elicited in connection with

Baltimore & Ohio Railroad. The annual report of the Baltimore & Ohio Railroad is just published. It firm. shows that the increase of revenue of this year over last is \$1,069,147; the revenue in 1871 being \$12,557,529, and in 1872 \$13,626,677. The expenses of working and keeping the roads and machinery in repair amounted to \$6,122,399, being 57.46 per cent upon the earnings, showing a decrease of 2.12 per cent compared with

the previous year.

"The pressure of trade from the Northwest has constantly shown the desirableness and necessity of a line of railroad under the control of the Baltimore & Ohio road from Chicago and through the extensive and lertile intermediate regions to Baltimore. For the purpose of effecting this connection with the least practicable delay, it has been determined to construct the road from a point about ninety miles north of Newark, on the Lake Erie Division, to Chicago a distance of 250 miles The line has been located with low grades, and is singularly direct. It is expected that the entire road will be placed under construction within a brief period, and thus these there are the statement is favorable. The bank statement is favorable. The banks now hold an excess of \$2,788,025.

The miners consider themserces entitled to a small elice of such increased profits, at least; and therefore strike to secure what they consider their just rights.

The remedy against such a state of affairs—and the consequent interruption in the supply of fuel—lies with consumers, as I intimated in my communication as as I intimated in my communication a few days since. Let consumers combine to resist the exorbitant demands of the dealers, and the unwarranted advance in their prices, and we will hear no more of

Railroad Slaughter-Safer Modes of

To the Editors of the Intelligencer. To the Editors of the Intelligencer.

In consideration of the many wholesale slaughters occuring on our railroads, it seems to be the duty of every thinking mind to direct its powers towards means for the prevention of such liabilities in future. How many would prefer the "slow line" of former days, we may immagine, as the drooping lid, the deep sigh and anxious looks bear witness as the time of departure draweth near. We expect accidents from the unbound elements, from Nature's forces, and accept

T S. FAIRFAR,

Life Politices are now generally conceded to be among the most certain and desirable of investments. This Company, managed on principles of strict economy, offers the lowest rates of premiums, consistent with safety, and lower, we believe, than any other Company doing basiness in the State. Its success is an established fact. All reserve from premiums, as a security to the policy holders, additional to the capital stock, is invested by the Local Boards, within that locality from which it is derived.

Being convinced by their knowledge of the integrity and prudence of the gentlemen who compose its Directory, and by a thorough examination of its plan of organizations; and it is in a covery respect a reliable of what the fact it is a covery respect as reliable of what the theory is a school of the state.
